(Buck Moore - Jim Mundy)

Packed up my toolbox picked up my lunchbox today I
am through
I just can't fight it and if they don't like they know what
they can do
Picked up my paycheck it's rainin' down my neck but
that's OK
Things will get better I'm spendin' the winter down
Mexico way.

Tropical nights stars shining bright
Rum and tequila sweet senorita to love every night
Sunshiny days sleep in the shade
Time doesn't matter I'm spending the winter down
Mexico way.

--- Instrumental ---

I'll work when I have to love when I want to and go
where I want
Make a few pesos and in a day or so it will all be gone
Makin' cantinas drinkin' sangria while the guitars play
It's gonna be better I'm spendin' the winter down
Mexico way.

Tropical nights stars shining bright
Rum and tequila sweet senorita to love every night
Sunshiny days sleep in the shade
Time doesn't matter I'm spending the winter down
Mexico way...
