(Ian Tyson)

There's a young girl that I know she just turned twenty-one
She comes from down in southern Colorado
I just out of the service and I'm lookin' for my fun
Someday soon she'll go with me someday soon.

Her parents cannot stand me cause I work the rodeo
They say that he's the kind that'll leave you cryin'
But I know she'll follow me down any road I go
Someday soon goin' with me someday soon.

And when I visit her her pa ain't got one good word to say
But it's cause he was just as wild back in his early days
So blow you ol' blue northern blow me on my way
I'm drivin' back from California
I love those danged old rodeos as much as I love her
Some day soon goin' with me someday soon.

And when I visit her her pa ain't got one good word to say
But it's cause he was just as wild back in his early days
So blow you ol' blue northern blow me on my way
I'm drivin' back from California
I love those danged old rodeos as much as I love her
Some day soon goin' with me someday soon.

Some day soon goin' with me someday soon...
