(Shirl Milete - Warren Robb)

You sure are a lonely lookin' lady  
And I sure am a lonely lonely man  
Let's share a drink and dance to some old slow song  
Tonight we both look like we need a friend.

But would you mind too much if I just call you Julie  
Could you try to understand my needs tonight  
Would you mind too much if I just call you Julie  
And you can call me anything you like.

--- Instrumental ---

It feels so good just lying here beside you  
Making love sure seems to make things right  
But you and I already know the ending  
Cause we're only two ships passing in the night.

So would you mind too much if I just call you Julie  
Could you try to understand my needs tonight  
Would you mind too much if I just call you Julie  
And you can call me anything you like.

Would you mind too much if I just call you Julie  
And you can call me anything you like...
