I have told you once before
stop pushing forwards towards me
i don't know how to cope
but i can pick up the phone when she rings

Come on now...
Everybody pick up your feet
i'm throwing a party
while everyone's asleep
come if you wan't
i'll be happy to invite you
and then say... Goodbye

I've seen you in the park
swinging on the swing
i come to join you
and you walk away...

Come on now..
Everybody come along
i will have you here as long as you like
i don't care bout nothing
no
and thin say... Goodbye

i don't care bout you
no
i don't care bout your fiends
nooooooooooooo

Everybody pick up your feet
i'm throwing a party
while everyone's asleep
come if you want
i'll be happy to invite you
and then say... Goodbye
mmm Goodbye
