There's a secret spot the boys and I know
When we want some action that's where we go
There's no place like it
It's every boy's dream
There's more fish than in a mountain stream
Well they cast out our lines hoping to hook
Something that'll make the other guys look
A nibble and a bite and we reel 'em in

Me and the boys are goin' fishin' again
We get all decked out in our fishing clothes
Down to the mall that's where we go
There's plenty of fish
In this big old sea
More than enough for the boys and me

Well they cast out our lines over the hook
Something that'll make the other guys look
A nibble and a bite and we reel 'em in
Me and the boys are goin' fishin' again

Cast out now!

Well they cast out our lines hoping to hook
Something that'll make the other guys look
A nibble and a bite and we reel 'em in me and the boys
are goin' fishin' again

Me and the boys are goin' fishin' again
Well they cast out our lines hoping to hook
Something that'll make the other guys look
A nibble and a bite and we reel 'em in

Me and the boys are goin' fishin' again
Me and the boys are goin' fishin' again
