With guns of love brought into battle
The nights will burn like never before
Pride will fall and foundations rattle
When guns of love put an end to war

I don't mean to say we should all surrender
I don't mean to say we shouldn't do our part
But when it comes time to choose our weapons
Tell me what's to keep us from reaching for the heart

You know how strong a little love can be
So try and imagine all the power you'll see

With guns of love brought into battle
The nights will burn like never before
Pride will fall and foundations rattle
When guns of love put an end to war

I don't understand why nothing changes
We take the same roads time and time again
We let it all ride on pride and vengeance
Knowing it's a game nobody's gonna win

So bet all you're anger if that's what you choose
But nothing's gonna change, everybody's gonna lose

With guns of love brought into battle
The nights will burn like never before
Pride will fall and foundations rattle
When guns of love put an end to war

If we get another shot, we better try to
Aim a little higher, higher, it's gonna take
A lot of thought but we can't keep fighting
Fire with fire, with fire, with fire

With guns of love brought into battle
The nights will burn like never before
Pride will fall and foundations rattle
When guns of love put an end to war

With guns of love brought into battle

The nights will burn like never before
Pride will fall and foundations rattle
When guns of love put an end to war
