Jump in let's go
Sit back enjoy the show
There are miles to go
There are miles to go

This could be the only night
The only night
But something you should know

[chorus]
I don't want you to want me
Cause, I'll hurt you in the end
i don't need you to need me
Tonight I'll hold you tight
But I won't come back again
Come back again

Don't think it's wrong
I just need somebody
And life goes on
And life goes on

CHORUS

INSTRUMENTAL

So stay with me tonight
This only night
Don't forget you know
