Sick. I'm sick of what you are  
You took away all that I believe  
Pray on those  
That reach out in need  
You chose the right victim

Now I'm torn apart  
Are you happy??

I'm dangling by the throat  
With a pain in my chest  
You set these traps  
To bring me down  
You've taken all the matters  
Ill never bleed for you  
But I hold this hope  
You'll bleed for me  
I beg bleed for me

Bleed for me

Whispers in the ears  
Of those who listen  
Transform the one that cares  
Turn this against me  
This is my final blow

Are you happy now?  
I'm dangling  
By the throat  
With a pain in my chest  
You set these traps  
To bring me down
