Yeah

She was made to blow you away
She don't care what any man say
You can watch her strut
But keep your mouth shut
???

Well now shes long
Long gone
Shes long
Oh now shes long
Yeah now she's long gone
Like Moses through the ???
Well her eyes theyre rubies and pearls
And shes not made like those other girls
Well her lashes ???
???
Like springs bouncing of her curls

Oh now shes long
Long gone
na na na na na
Shes long
Oh long gone
Like Moses through the ???

Rock on
