What happened after the storm  
Was everyone okay  
I tried to call again  
I think they've gone away

(Will you look the other way)  
(Will you look the other way)  
(Will you look the other way)  
(Will you look the other way)

I dreamt of an ice-age today  
Cold and white to see  
I walked for miles and miles  
They came back another way  
We learned them as we went  
Forgot them straight away  
The ones we left behind  
The ones we sent away

(Will you look the other way)  
(Will you look the other way)  
(Will you look the other way)  
(Will you look the other way)
