I don't want to make this harder than it needs to be.
I can complicate things pretty easily.
I just want to be a little smarter
With the things that I already have
Without having to add on to them.
I took you for granted. I wasted so much time,
Waited to see the vantage point because I was blinded.
But you waited so patiently for me to come around.
I finally found you, oh.

I've got a new found (love)
I've got a new found love.
It's always been around
I've got a new found (love)
I've got a new found love.
It took me until now to find it.

I was on the verge of breakdown
For so many years
Searching for a love
To drive away these fears, yeah.
I keep looking at the glass half empty
But oh it is so full of things
I've never seemed to notice before, yeah.
But you waited so patiently
For me to come around and finally,
Finally I found it.

I've got a new found love
I've got a new found love.
It's always been around
I've got a new found love
I've got a new found love.
It took me until now to find it.

Scales cover eyes until
The light shines through and awakens us to all we've
never seen.
What a surprise that you would find me hear and invite
me to your dream.

Yeah I've got a new found love

And it fell out the sky like a star from above.
Up until now I never knew what it was.
See it came out of nowhere and hit me like a mac truck, bam.
It was always there I just never understood.
I was sittin' right in front of somethin' that was so good
To the one in my affection, call it a revival.
I held it like this, see now I need it for survival. (Play Micheal)

(X2)
I've got a new found
I've got a new found love.
It's always been around
I've got a new found
I've got a new found love.
It took me until now... (to find it).
