Take me back to your side
That's where I wanna be
There is no place like where you are
Getting the love that sets me free
Now I'm whole again

I just want to fly
Jump in my aeroplane
We can go anywhere
But I won't go there without you
(Without you)

Once again we're on our way
Through the clouds hold my hands
The mountains move when I speak your name
There is no place where you don't rain
(There is no place)

Jump in my aeroplane
We can go anywhere
But I won't go there without you
Get in my aeroplane
We can fly anywhere
But I won't go there without you
I'm wanting to be
closer to your love

Jump in my aeroplane
We can go anywhere
But I won't go there without you
Get in my aeroplane
We can fly anywhere
But I won't go there without you
(Without you)
