Somethin' in the way you look
Reads just like an open book
Somethin' in that book I read
Tells me it's not me you need

Somethin' in the things you say
Tells me we're goin' different ways
Somethin' in the things you do
Tells me that I'm losin' you

CHORUS:

I got a feelin' that we're headin' for bad times
I got a feelin' that there's somethin' on your mind
I got a feelin' that we're headin' for bad times
I got a feelin' that you're leavin' me behind

Somethin' in your touch has changed
Don't know what but somethin's strange
Somethin's funny that I feel
Tells me words I'm gonna hear

(chorus)

We used to laugh like children & live a life of love
We used to walk in sunshine & never have enough
Of the times we had together, but now things are
getting tough

(repeat chorus & fade)
