"This Is How Much I Love You"

Visit "[This Is How Much I Love You](#)" on MotoLyrics.com

Let me see your smile, & I will analyze your heart
While you are waiting, as far as I can see is you

I know that you love me; this alone is not the reason
That I need you; what am I to see but you?
Oh oh

CHORUS:

This is how much I love you
More than anyone could love you
This is what myself tells me
This is how it always should be
No matter what people may say
I'll always love you this way

(instrumental)
(repeat chorus & fade)
