Where did you come from?  
If you're real I can't believe my eyes  
Just like a summer rain  
You caught me by surprise  
Where are you goin'?  
Pretty girl with lips as red as wine  
I'm gonna follow you, my love  
Till I make you mine, all mine

CHORUS:

Now that you're near, we have so much to do  
Take my hand & hold on tightly; I'm not losin' you

Where did you come from?  
Let's go back together right away  
I cannot wait to tell the world  
That I fell in love today

(chorus)

(repeat & fade):  
I fell in love today, yeah  
In love today, oh yeah  
In love today, yeah yeah  
In love today
