Waiting as I'm wanting to
Speaking as I'm spoken to
Changing to your point of view
Fading as I follow you

A boyish notion of false emotion
These words are spoken, despite my love
A fool's devotion was set in motion
My eyes are open now

It's a glass cage so I can't pretend (can't pretend)
You hide beneath the physical.
I see it coming but I can't defend (can't defend)
You cut so deep, my belief is gone
My belief is gone
My belief is...

Tell me what I want to say
Save me for another day
Break me, it's the game you play
Hate me as I turn away

A boyish notion of false emotion
These words are spoken, despite my love
A fool's devotion was set in motion
My eyes are open now

It's a glass cage so I can't pretend (can't pretend)
You hide beneath the physical
I see it coming but I can't defend (can't defend)
You cut so deep, my belief is gone
My belief is gone
My belief is gone
My belief is gone
My belief is...

It's a glass cage so I can't pretend (can't pretend)
You hide beneath the physical
I see it coming but I can't defend (can't defend)
You cut so deep, my belief is gone
My belief is gone
My belief is gone

My belief is gone
My belief is...
