Ooh  
ooh  
baby

I have made a promise and I do my best to keep it

'Cause you kept your promise and you never asked for  
profit.

I want to repay you  
baby  
and be there for you  
too  
so:

Any time you want me  
any time you need me

Anytime  
just call on me.  
Any time you miss me  
any time you're lonely

Call on me and I'll be there  
yes I'll be there.

I'll do my best and nothing less  
so come on  
baby  
make your  
request

I'm here for you as you are for me  
just say the word 'love' and  
let it be.  
Remembering walking very slowly in the rainy weather

You and I hand in hand  
perfectly together.  
Love was created when the words were spoken

And I made you a promise that won't be broken:

Any time you want me  
any time you need me  
...  
You don't need to have a reason  
any time of day  
any time of  
season:  
Any time you want me  
any time you need me  
...

I'll do my best and nothing less  
so come on  
baby  
make your  
request  
...  
Any time you want me  
anytime you need me  
...  
Any time you want me  
anytime you need me  
...
