verse 2

enter the main vein
run a train on a fools brain
like syringe of heroin
watch me narrow in
going at googleplex milesper hour
come and try to climb up this never ending tower
i deflect the rejects that always try to mess
they thinking that they is the best
its a mess , but yet so complex

capacity cant hold much more than this
i am the apoklipse being optimistic
i feel that everything will be great
so dont miss it
and if you dont believe that, then listen
wonder why your friend and your man just gone
missen
