Iâ€™m confused, cause all my dreams are gone,
Seems that now theyâ€™re melt away
Memories wake me up in the night
They remind me about yesterday

I donâ€™t know what is left
I donâ€™t know if I feel
Any regrets the story is over
It was not just a dream
Used to get up and fly
And I never will forget you

Na, na, na na na cherry babe no sorries
No, no no no tears only lovely memories
Na, na, na, na, na cherry babe remember
Who knows maybe one day will love again in Paradise

The story used to be full of happiness
We were dreaming day and night
No one knows why this love is gone
Why we have to say goodbye

I donâ€™t know what is left
I donâ€™t know if I feel
Any regrets the story is over
It was not just a dream
Used to get up and fly
And I never will forget you

Na, na, na na na cherry babe no sorries
No, no no no tears only lovely memories
Na, na, na, na, na cherry babe remember
Who knows maybe one day will love again in Paradise
