Visit "[Disco](#)" on MotoLyrics.com

I tell you once, I tell you twice
I'm old enough to get to paradise
So get me and you will break my strike

I just can't wait the tide is high
I wanna see those crazy Disco Lights
And maybe tonight will be the night

Take me to the disco L.A. down to Frisco
People rock the Party every day and Night
Take me to the disco L.A. down to Frisco
Come let's get it started and we're feeling right

Take me to the disco, disco, disco
Down to San Francisco every day and night
Take me to the disco, disco, disco
Just like a Kalypso we are feeling right

It's Just too good to be true
I rock the floor together with my crew
And people, they dance under the moon

The speakers blast, the lights go wild
Well I am going crazy deep inside
Together, tonight will be the night

Take me to the disco L.A. down to Frisco
People rock the Party every day and Night
Take me to the disco L.A. down to Frisco
Come let's get it started and we're feeling right

Take me to the disco, disco, disco
Down to San Francisco every day and night
Take me to the disco, disco, disco
Just like a Kalypso we are feeling right
