Friendship lasts eternaly
We never say goodbye
(The) best thing in our lifes is free
Cause there's a you and I

We get ready for our chance
We together till the end

Friend 4 Ever and one day
We're together come what may
And in good times and in bad times
Always and ever again
Friend 4 Ever an one day
Made for now and made to stay
And forever we're together
Always an ever again

Something in my memory
I will never forget
Without you there is no We
And that is more than sad

We will always go our way
We get stronger day by day

Friend 4 Ever and one day
We're together come what may
And in good times and in bad times
Always and ever again
Friend 4 Ever an one day
Made for now and made to stay
And forever we're together
Always an ever again
