"Last Flight To The Stars"

Visit "[Last Flight To The Stars](#)" on MotoLyrics.com

Dam dadada,damdadada

Dam dadada,damdadada

Dam dadada,damdadada

Watching the sky, I can't deny

I dream of being in heaven

No gravity, like mystery

I wish I could stay forever

I fly so high, up to the sky

I take the last flight to the stars

I fall in love with planet mars

The milky way is not so far

I'm simply all alone

I take the last flight to the stars

I'm passing pluto, venus, mars

The milky way is not so far

I'm really on my own

Dam dadada,damdadada

Dam dadada,damdadada

Dam dadada,damdadada

Taking a breath, the air smells so fresh

Alone I'm floating through nowhere

A moment in time, and it is mine
I'm so glad that I can be there
It' like a dream, it's so unreal
I take the last flight to the stars
I fall in love with planet mars
The milky way is not so far
I'm simply all alone
I take the last flight to the stars
I'm passing pluto, venus, mars
The milky way is not so far
I'm really on my own
Dam dadada,damdadada
Dam dadada,damdadada
Dam dadada,damdadada
