

Befour "Time To Dance"

Visit "[Time To Dance](#)" on MotoLyrics.com

It's time to dance, time to dance, take your chance
Everybody clap your hands, clap your hands, do the
dance

To the rhythm of the beat, of the beat, stomp your
feet

Everybody feel the heat, feel the heat, of the beat

One step to the left, two steps to the right now

Turn away your hand, turn it to the side now

Stomp your feet and you will feel the beat

Hands up in the air, raise them up to heaven

One, two, three, four, five, six we count to seven

It's time to dance, time to dance, take your chance

Everybody clap your hands, clap your hands, do the
dance

To the rhythm of the beat, of the beat, stomp your
feet

Everybody feel the heat, feel the heat, of the beat

Building up a row, grasp each others shoulder

The rhythm lets you go, the younger and the older

Stomp your feet, Oh can you feel the heat

One hop to the front, one hop to the back now

That you know the song, you can simply shake down

Make the dance and you will make new friend
