Stephenie Meyer's the queen of all vampires
how does she make this stuff up?
she's got to be, some form of genius
with Twilight she's hit the jackpot

she's our hero, how many times in our lives
have we drooled over vampires?
she's our hero
cause Edward's so hot he can set the house on fire
yeah he's one sexy vampire, sexy vampire

Stephenie Meyer is not a liar
we know that werewolves are good
we've got a message for all the Jacob haters:
the Volturi want your blood

she's our hero, how many times in our lives
have we drooled over vampires?
she's our hero
cause Edward's so hot he can set the house on fire
yeah he's one sexy vampire, sexy vampire

you better stay back
cause Stephenie has got our backs
and we want you to know

she's our hero, how many times in our lives
have we drooled over vampires?
she's our hero
cause Edward's so hot he can set the house on fire
yeah he's one sexy vampire, sexy vampire
