We sat, sat on top of the world  
And you said, said that you'd be the girl  
Stop, stop me fooling around  
And I said you'd keep my feet on the ground

Say you will stay away, say you will forget  
Say you will stay away, say you will forget

I'm sorry, sorry for what I've done  
So sorry for what i have become  
Was this what was always missing?  
Was I, was I not listening?

Say you will stay away, say you will forget  
Say you will stay away, say you will forget

Don't ask me to rule with my heart or yours will break

We sat, sat on top of the world  
And you said, said that you'd be the girl  
Stop, stop me fooling around  
And I said you'd keep my feet on the ground

Say you will stay away, say you will forget  
Say you will stay away, say you will forget  
Say you will stay away, say you will forget  
Say you will stay away, say you will forget
