So, who would hold you  
Whenever you cry  
Who would make you smile  
You'd just leave that to me  
I want you to leave that to me, yeah  
When you're insecure  
Who would let you know  
That you're the most beautiful  
Baby just leave that to me  
I want you to leave that to me

From the compliments to the arguments  
There was nothing we won't go through  
I would lead for us, I don't care about the rest  
As long as we're together

'Cause you make me stay  
You make me stay forever  
'Cause what I feel is deeper  
Then all that I've ever known  
All that I've ever felt before  
You're my final destination  
I'm where the grass is greener  
It snows where the sun is stronger  
I'm right where I want to be  
Right outside your front door  
You're my final destination

My final destination, my final destination  
I ain't going nowhere, my final destination

I want to be the guy that you brag about  
Telling all your friends  
"He's so good to me, yeah, he's soo good to me", hmm  
And my family will be asking me if I'm truly ready  
I'll tell them  
"You are so good to me, you are so good to me"

From the compliments to the arguments  
There was nothing we won't go through  
I would lead for us, I don't care about the rest

As long as we're together

'Cause you make me stay  
You make me stay forever  
'Cause what I feel is deeper  
Then all that I've ever known  
All that I've ever felt before  
You're my final destination  
I'm where the grass is greener  
It snows where the sun is stronger  
I'm right where I want to be  
Right outside your front door

You're my final destination  
I'm about to settle down  
'Cause I found what I was looking for  
Never gonna let her go  
No questions  
You're my only remedy  
'Cause I found what I was looking for  
Never gonna let her go, ooh

'Cause you make me stay  
You make me stay forever  
'Cause what I feel is deeper  
Then all that I've ever known  
All that I've ever felt before  
You're my final destination  
I'm where the grass is greener  
It snows where the sun is stronger  
I'm right where I want to be  
Right outside your front door  
You're my final destination

'Cause you make me stay  
You make me stay forever  
'Cause what I feel is deeper  
Then all that I've ever known  
All that I've ever felt before  
You're my final destination  
I'm where the grass is greener  
It snows where the sun is stronger  
I'm right where I want to be  
Right outside your front door  
You're my final destination

My final destination, my final destination  
You're my final destination  
You're my final destination
