you just forget about it
you must forget about her
they keep on telling me, but i don't wanna hear
my life is going under
without you nothing matters
the best part of me, has disappeared

Oh, i knew it was true the first time i saw you
why do you think i do
all the things i do?
Oh, who would think we'll end up?
Will i hate you?
It took a day or two, to say I love you

[Chorus]

I love, love, love, love you you you you
No matter what's just going (i love you girl, you mean
the world to me)
I love, love, love, love you you you you
Whatever happens girl

You know, that we were happy
Why go, to be unhappy
We never really tried, to make everything alright
You have a thousand questions
I will find a thousand reasons
Why you should be with me
And never say goodbye

Oh, i knew it was true the first time i saw you
Why do you think I do
All the things I do?

Oh, who would think we'll end up?
Will I hate you?
It took a day or two, to say I love you

[Chorus x2]

I love, love, love, love you you you you
No matter what's just going (I love you girl, you mean

the world to me)
I love, love, love, love you you you you you
Whatever happens girl

Now I know that I never should've let you go
I swallowed my pride and I admit that I didn't always
treat you right
Let me show you, that we can be better enough than
before
But three little words, we've heard a million times
I've told you so many times but we don't know how
But three little words, can change your life
You came and you changed my life, that's why

[Chorus x2]

I love, love, love, love you you you you you
No matter what's just going (I love you girl, you mean
the world to me)
I love, love, love, love you you you you you
Whatever happens girl
