"This City"

Visit "[This City](#)" on MotoLyrics.com

I love I love I love I love this city
Even when the skies are grey
I love I love I love I love this city
Even when it starts to rain, rain

Got a feeling that I miss the streets
As the diamonds brush my feet
Big lights saying hey hey hey hey
This is the place where dreams are made
Back in piccadilly days
This city's saying hey hey hey hey

And they won't let you go
No matter where you think you're from
This is london baby
You can't save me
Throw your hands up singing

I love I love I love I love this city
Even when the skies are grey
I love I love I love I love this city
Even when it starts to rain, rain

Rain rain rain rain come again another day
Rain rain rain rain come again another day

Like lovers on the... that day drinks and candles on
brick lane
We live singing hey hey hey hey
You want your kings and your queens and your palace
full of dreams
Well you'll never walk alone here

And they won't let you go
No matter where you think you're from
Cause this is london baby
You can't save me
Throw your hands up singing

I love I love I love I love this city
Even when the skies are grey

I love I love I love I love this city
Even when it starts to rain, rain

Rain rain rain rain come again another day
Rain rain rain rain come again another day

Hey to the party but the party won't quit
We're coming down to london town and we gon' start it
Na na
Na na

I love I love I love I love this city
Even when it starts to rain, rain

Rain rain rain rain come again another day
Rain rain rain rain come again another day

I love I love I love I love this city
Even when the skies are grey
I love I love I love I love this city
Even when it starts to rain, rain

Na na
Na na
