How long i've tried  
to make it mine again,I have searched  
a thousand years in vain  
nine riders of the ring the messengers of night  
traced it far away ,far away beyond my might

And I know that you are on the flight  
wherever you may rest beware of the shadows of the  
night  
do not fall asleep do not wander in the dark  
take the ring put it on follow the wish inside your heart

Refrain:  
Whom will I fear  
who took the ring  
Who's hand is darker than the night  
Shall i reveal tomorrow's sins  
when the shadows steal the light

If only I could have my precious one  
like i wish it shall be done  
Don't you wonder what a new day will bring  
night shall reign once i have the rulin'ring
