

Blackened "One Man's Hell"

Visit "[One Man's Hell](#)" on MotoLyrics.com

Men are running through the fields
fear is in their brain
Now the time to kill has come
it drives them all insane

Look at me and hear my cries
the end will come to you
time is over don't you realize
there's nothing you can do

fallen soldiers on the ground
killing bullets flying through the night
deadly silence all around
oh god please end this night

Refrain:
horror - screaming
this bloody nightmare's falling
the blackened night
will kill the heaven's light
evil - darkness, the blackened soul keeps fighting
this goodless mission brings death and dyin'

looking for a place to hide
as hell is breaking in
screaming bleeding take my life
see the devil grin
