

Blackened "Where Eagles Fly"

Visit "[Where Eagles Fly](#)" on [MotoLyrics.com](#)

Look into the sky
where the sun just died
And night comes falling down
to wake my fear again

This coldly dark that came
my cryin' in the rain
'bout all the things I did
when I was there away

I pray the lord to set me free
I want myself just to be me
I pray the lord to end my fears
I want you to help me dry my tears

Refrain:
Take me where the eagles fly
take me to the lord up high
Take me when my time has come to die
take me to the lord up high

When I see you're eyes
a fallen star there lies
Wait for me
to unlock the door again

Come join my lonely way
to make your love here stay
Forever and a day
I will wait to see you here
