Uhh! Y'all know the scrilla  
Watch the maneuver

[Verse One]

Check the action, tracks with traction, fact with fiction  
Mix it, now that's faction, El got you relaxin  
I'm camomile, volume sleepin pills  
Head back but comin still  
The production is fuel-injected, Speed Racer behind  
the wheel  
Diesel beats real  
As conversations on 43rd Street in the projects, slangin  
words  
Hey fiends, sniff these verbs  
Pick 'em up off the curbs  
Tracks like tickets over twelve billion served  
And, keep yo' hands out my pocket  
Uhh, Brother El used to catch the L  
Before he grabbed the mic and rocked it, in XL  
Uhh, ballad in myself I do myself in a cell  
Analyzed it, locked it in, and now I got it  
Listen, there's, no competition make  
beats with my alter-ego, sweat in my eyes, double  
vision

Incisions of small cuts to the veins of the brain  
Ya, y'all niggaz ain't right man, ya y'all niggaz ain't  
right!  
Yeah, we gon' work it out witcha, mm-hmm, yeah just  
hold pat

[Chorus]

Whooped, massacred, raped, scarred  
Ridiculed, under-educated and domesticated  
Hardcore brother tryin to stay motivated  
And what my cypher created the world try and fade it

[Verse Two]

How you feel? I'm straight, but I could be better  
I'm composin a letter, a letter for what?  
A letter to state, showin the fate, of mankind  
line for line

I'm livin decent but I'm cryin; I'm sick of tryin to  
come up on a grip, don't slip, that's easy  
I step in military formation  
Pacin the cold streets, dark nights, and gang fights  
over, territory, that ain't right, I might  
just step back and react on a different plane  
Change the slang, watch the devils go insane  
cause they don't understand a damn thang  
Life ain't the same when you use your brain  
Reveal the name, don't be estranged  
They not ready to see the true blackness  
In fact this is a whole new concept but I'll keep you in  
step  
Oooh! Watch the moves it's a dusty groove  
And I, come with bullshit to make hits  
I, hold the essence of effervescence, now  
.. uhh, learn your lessons!

[Chorus]
