Tell me did I hurt you
All wash of waters broken
A faviourous machine to suck
So close your eyes I'll cut you inside
And tell me did I hurt you...hurt you?
Your machine will die
And tell me what I've wasted...tell me

Gasoline is in my head
I'm turning on
Gasoline is in my head
Gasoline is in my head
I'm turning on
I'm turning on

Tell me if it kills you
Quietly the world is waiting
Desperate for it's own arrival
Something tries to burn you inside
And tell me what I've taken
I've Taken...your machine will die
Nothing's ever wasted...Tell me

CHORUS

These hands have broken
Hard pressed on everyone
My words can't open you alone...you alone
