[P. Diddy - talking]

Yeah

There's three things I like about the summertime

Drop tops, long hot nights and summer love

Yeah

Hey yo, B

Tell 'em what time it is

Let' s go

[Beyonce]

Out of all the guys that approached me

Walking up to me like they know me

You were the one that stayed aside

Waited a while and took your time

You don't know how impressing

Your curiosity was to me

It was the fourth day of July

Looked in my eyes and saw that I

[Break - Beyonce]

I wanted more than just a man (man)

I needed a friend (I want a friend)

Someone I can talk to (oh)

Someone who'll really listen (yeah)

When you touched my hand (yeah yeah)

The sun got brighter then (brighter then)

Trusting you I closed my eyes

And felt our love begin

[Chorus - Beyonce]

It was the summertime (when we fell in love)

It was the summertime (when heaven shined on us)

It was the summertime (baby there is nothing like the)

Summertime, summertime (ohh)

[Beyonce]

Now it's been a year and we're closer

Fall in love again when I hold ya

I know that God set you aside

For me and now you are my prize

Wanna grow old with ya

Fill a house with ya pictures
Have a son for you, a little girl for me
Together we'll raise a family

[Break - Beyonce]

I wanted more than just a man
I needed a friend
You are my best friend (yeah)
Someone I could talk to
Someone who'll really listen (yeah)
When you touched my hand (yeah)
The sun got brighter then (brighter then)
Trusting you I closed my eyes
and felt our love begin

[Chorus]

[P. Diddy]

Yo let me holla at you for a sec
So what's in gonna be, him or me? (yeah)
We can cruise the world for pearls
And bare boots for girls
Summertime in the linen, fresh fruit
Livin the life that's forbidden for just you (let's go)
No worries you ain't gotta be stressed out
No hurries you ain't gotta be rushed out
Sit back relax ma take your time
Now have a taste of the finest wine
Every minute that we have's a blessing to me
And in your heart you's a "Child of Destiny" (that's
right)
Them hot summers that we had especially
Love who you is girl, you bring out the best of me
And it's like that, you know it's like that (that's right)
And that's your plan, where's your hand let me ice that
You my heart ain't no chance you could fight that
The summertime, when you hot baby take that, take
that
Yeah..

[Chorus]
