I came screaming down the highway  
Looking for a place to fly  
Stopped outside the window  
It's only in the blood

Into the kitchen  
Found you lying on the floor  
There I tied you up in wire  
I can't feel you anymore

You gave yourself to me  
I offered you to God  
Wrapped the curtains round your body  
It's only in the blood

This shrieking love  
Comes crashing down  
This shrieking love  
Is not the one you thought you'd found  
Oh, it's only in the blood

It's a deadly clear addiction  
A body's breath away  
A long hot bath in acid fast  
It's only in the blood

On down the highway  
Looking for a place to fly  
Stopped outside the window  
It's only in the blood

This shrieking love  
Comes crashing down  
This shrieking love  
Is not the one you thought you'd found  
Oh, it's only in the blood
