Go to sleep my dear

Travel thru an intergalactic maze

I'll sing you a lullabye in twisted ways

And everything's ok

Maybe on wings of fate

I will be there

And when the end of days is near

I will be there

Hear the monsters growl

Beyond your cover and underneath your bed

Hopeless and discouraged you signal for

A hero to lift your head

Maybe on wings of fate

I will be there

And when the end of days is near

I will be there
