the brightest full moon light entrances me  
it calls me forth  
yet i have not the strength to move  
in stasis, i rot away and dream  
dream of forgotten years  
dream of the touch of another's hand  
i am to be a meal of star-ved worms  
my nerves are twisting for the light of my salvation  
i rest beneath where i remain as cold as clay  
eternal pain is swelling in my joints

somewhere within me a flame is slowly born  
inside this shell of bloated flesh grows life anew  
infernal, the moon distorts my mind  
my veins jolt back to life, pushing the fluids of the  
damned

i seek to bathe my fetid flesh in crimson spray  
my body writhes without consent of conscience  
i lift the lid the pounds of dirt shall not subdue  
i shall walk the earth once more

from beyond the strings are pulled  
i know not what has made me this way  
the animation of my rigid corpse  
i shall abandon my coffin of premature fate

all the words of the preacher  
all the tears of my family in vain  
i shall again walk amongst them  
my penance with blood be repaid!  
repaid!

[solo]

dead hand grasps for the still night air  
i am now free to maim!  
there cannot be a god for he would not forgive this  
despicable inhuman monster; rotten, twisted and  
deformed  
i am now a tool of my unholy instinct  
entrails strewn at my bidding

a mockery of all i was

i seek to bathe my fetid flesh in crimson spray  
my body writhes without consent of conscience  
i lift the lid the pounds of dirt shall not subdue  
i shall walk the earth once more

from beyond the strings are pulled  
i know not what has made this way  
the animation of my rigid corpse  
i shall abandon my coffin of premature fate

all the words of the preacher  
all the tears of my family in vain  
i shall again walk amongst them  
my penance with blood be repaid!  
repaid!
