You're my insomnia...

Chorus:

Do you know what you mean to me?

Are you aware that you're my destiny?

I can't sleep. My reality is finally better than my
dreams...

Verse 1:

Up all night, thinking of you. My mind's in a maze. I
don't know what to do.

(oooooooooh, I love you)

Like a stereo beating in the room next door, my heart
beats for you and nothing more.

[Chorus]

Verse 2:

Forever is our destination. We'll make it there without
a complication.

(oooooooooh, I love you)

All in all, it's the perfect scene. You're my insomnia, my
never-ending dream.

Bridge/outro:

My heart is the ocean, and yours is the beach. At
times it may seem distant, but it's never out of reach...
