Straight From The Heart

Intro:

I just wanna let you know  
That my love is for real, yeah

We've only just begun  
To find out what went wrong  
Because with every beat of my heart  
I do pray, will you stay  
Will you hold me again  
Let's go back  
Let's take our time  
Here is what I want you to know

Chorus:

Straight from the heart  
Girl, my love is for real  
I still believe in you  
Straight from the heart  
That is all I can do  
I still believe in me and you  
Won't you give me a chance  
To show you how I feel  
Cause I wanna love you again

Let's talk of us again  
Find out just where we stand  
What it means, how it seemed  
When we were so far apart  
Let's go back  
And take our time  
Here is what I want you to know

Chorus

Ooh will you love again  
Straight from the heart  
Ooh will you love from the heart  
Will you love again
