"After All"

Visit "[After All](#)" on MotoLyrics.com

show your light to the whole world
they can't see
they can't see

show your love to the real world
let them know
let them know

after all they're only looking for a light
just someone to hold us close
after all they're only looking for a love
just a thing to make it right

show a smile if you're lonely
don't break your heart
don't break your heart

just find something to believe in
and hold it tight
and hold it tight

after all they're only looking for a light
just someone to hold us close
after all they're only looking for a love
just a thing to make it right
