The beasts of pride holding you down  
Their knives are drawn stabbing at the pieces  
I want you  
To feel what I do

Now I cant help you theyre choking off the air  
And you cant breathe with their hands around your  
neck

I want you  
To feel what I do  
This hope that surrounds us  
Keeps us safe tonight!

I want you  
To feel what I do  
This hope that surrounds us  
Keeps us safe tonight!

Oh, oh, o-o-oh (x8)

(I want, you to feel!  
To feel what I feel now!  
I want, you to hope!  
To hope what I hope now!)
