"Since When"

Visit "[Since When](#)" on MotoLyrics.com

[CHORUS]

The whole world's gone crazy
Either that or it's just me
Since when was I the one to blame
Since when was I the enemy

I mean,
Every day I want to die, but
Your memory keeps me alive
I've lost what I've just found
I'm falling, falling...
but I haven't fallen down
Without you, I cannot feel
I don't think that life is real
I don't think that life is real

[CHORUS]

I mean,
Every time I try to smile I frown
You've just pushed
My life down
I have no reason to be here
I don't think that life is real
I don't think that life is real
Is it real?

[CHORUS]

(Repeat Chorus, fading out)
