

Burning Yesterday "Fear"

Running around in circles
Fighting fears inside my head
I can't fight the thoughts
That hold me over the edge
Hold it tightly, but don't let go

The fear consumes me
I'm shaking and I'm cold
It's right beside me
Everywhere I go

I feel it shake me
Deep inside my soul
I want so badly
To fear nothing when I'm with You
Hold it tightly, but don't let go

The fear consumes me
I'm shaking and I'm cold
It's right beside me
Everywhere I go

Take this over, this will never consume me
(Take this away, take this away)
Take this over, this will never consume me
(Take this away, take this away)

The fear consumes me
I'm shaking and I'm cold
It's right beside me
It's everywhere I go
It's everywhere I go
It's everywhere I go
