I've been going insane  
I'm out of my head  
Feeling all alone  
I've been sitting here  
watching life go by  
I'm still holding on and on...  
Can't you hear me  
calling out your name  
I can't get enough...

Chorus:  
Never gonna run  
Never gonna hide  
All I wanna do is  
stay here by your side  
Reach and touch my heart  
There's nothing there to fear  
Can't you feel my heart  
beating faster baby  
Everytime you're near  
Whoah oh oh oh  
Everytime you're near  
I see the wheels are turning  
In your head  
Reflections in my mind  
Drive me to the edge of reason  
Can't see ahead  
Tears they drive me blind  
and I want your love  
to fan this dying flame  
Gonna call your bluff.

Chorus:  
Never gonna run  
Never gonna hide  
All I wanna do  
is stay here by your side  
And Reach and touch my heart  
Nothing there to fear  
Can't you feel my heart  
beating faster baby  
Everytime your near

Whoah oh oh oh  
Everytime you're near  
oh oh -----

\*instrumental\*  
Everytime you're near

Im still holdin' on and on and on  
Holding on and on  
I'm still holdin' on and on and on  
Holdin' on and on

Chorus:  
Never gonna run  
Never gonna hide  
All I wanna do  
is stay here by your side  
Reach and touch my heart  
Nothing there to fear  
Can't You feel my heart  
beating faster baby  
Everytime your near

Gonna give it all  
Baby swallow all my pride  
And reach into my heart  
Nothing there to fear  
Can't you feel my heart  
beating faster baby  
Everytime you're near  
Can't your feel my heart  
Everytime you're near-  
Can't you feel my heart  
beating faster baby  
Everytime you're near

I'm still holdin' on and on and on  
Holdin' on and on  
I'm still holdin' on and on and on

Whoa  
Yeah
