I feel I've known you
I've seen this
picture all before
Your eyes just see
right through,
Through it all

instrumentals

Verse 1:

It's Late December
I'm waiting
Standing by your door
You won't surrender
But I'm wanting more

We had to hide it
Knowing the secrets
That we made
You kept denying
And you chose to stay
It feels so real
And It 's on your face
You don't see it.
I can't erase it.

Chorus:

Imagine Imagine a world
Where, It's all a memory
Don't you remember me?
Imagine Imagine a place
Where, I'm just a memory
That's all I'll every be

Instrumentals

Verse 2:

I needed shelter
Someplace where
I can call my home
We said "Forever..."

But I lie alone
And That's the way
this story ends
If you can't see it
How could you feel it

Imagine, Imagine a world,
Where, It's all a memory.
Don't you remember me
Imagine, Imagine a place,
Where, I'm just a memory
That's all I ever be

Instrumental

It's all a memory.
Don't you remember me

Instrumental

Imagine, Imagine a world
It's all a memory
Don't you remember me?
Imagine, Imagine a place
Where, I'm just a memory
It's all I'll ever be
Imagine, Imagine a world
Where, It's all a memory
It wasn't meant to be

Imagine, Imagine a place
Where, You're just a memory
If you could only see

Instrumentals

If you could only see

instrumentals

I Feel I've known you
