Blue stranger
Standing in the street light
Blue stranger
Let me help you make it alright
Blue stranger
Let me be the one you wait for
Blue stranger
Let me make you a stranger to no one

I don't even know you butr I love you just the same
Stanger

Blue stranger
Pretending to be no one
Blue stranger
Your eyes reach for someone
Blue stranger
Standing in the street light

Blue stranger
Let me help you make it alright

Mama said don't talk to strangers
But I can't resist falling into your danger

Hurt me
Hurt me bad

Blue stranger
Blue stranger
Standing in the street light
Blue stranger
Let me help you make it alright
Blue stranger
Let me be the one you wait for
Blue stranger
Let me make you a stranger no more
