What do you think of what is coming my way
Do you see the storm or do youÂ...look away
Do you wish the fire and do you wish the pain
And when you come do youÂ...spit on my grave

And now it falls like IÂ've never feltÂ...
Do you wish me well while itÂ's raining hell?
Is this part of your deadly spellÂ...
Do you wish us well as we burn in hell?
And now it falls like a funeral knellÂ...
Do you wish me well now that it is raining hell?
You wonÂ't look in my eye with that lie you sellÂ...
I know you sealed the cell as we burn in hellÂ...

What do you think of those bloodstained tears?
Do you laugh in painÂ...bury all your fear
DonÂ't ever think that IÂ'm not near
I will never forget and I amÂ...always here

And now it falls like youÂ've never feltÂ...
Do you wish me well while itÂ's raining hell?
Is this part of your failing spellÂ...
Do you wish us well as we burn in hell?
And now it burns like the air you breath
Do you drown in the well now that it is raining hell?
You wonÂ't last when youÂ're talking to me
I know you sealed the cell but youÂ're with me in
hellÂ...

YouÂ're prayers have failed now that youÂ've lost it
allÂ...
You thought you planned it wellÂ...but youÂ're with me
in hell
