Pack up your photos
Shout at the skies
Bury your memories
Leave them behind

Cry in your coffee
Pull at your hair
Nobody sees you
Nobody cares

It's a matter of you
Like a womb with a view
Trade the bold for the blue
It's a matter of you

Safe in your sandbox
Shovel and pail
Scour the surface
Leave no details

Look in the mirror
Stare in your eyes
Get lost and wander
In your disguise

It's a matter of you
Like a tomb with a view
Trade the bold for the blue
It's a matter o fyou
