Moving on makes it harder to move
But I gotta leave it all tonight
with all I gotta prove
Leave that car in the driveway
It never wanted to go anywhere anyway

I don't want nine-to-five five days a week
no I don't want to smile at someone when I wanna
speak
And I can't won't drink flat beer under dim street lights
no more

No, all I wan't is more

All I want is all I want
let that be my final demand
all I want is all I want
if you want it too, come take my hand

Those dishes in my house still need to be washed
but I'd rather see them smashed on the floor
cause I don't wanna live a middle-class life as a
middle-class machine no more
No all I want is more

All I want is all I want
let that be my final demand
all I want is all I want
if you want it too, come take my hand
