I will always love you
No matter what
No matter where you go or what you do
And knowing you,
you always have to do thing your own way, and that's
OK
So be free, spread your wings, and promise me just one
thing

If you ever need a place to cry
Baby, come to me, come to me
I've always known that you were born to fly
But you can come to me
When the world breaks your heart
No matter where on earth you are
You can come to me

Don't walk around with the world on your shoulders
And your highest hopes laying on the ground
I know you think you've got to try to be my hero
But, don't you know, the stars you wish upon may fall
that's true, but I'll still believe in you

If you ever need a place to cry
Baby, come to me, come to me
I've always known that you were born to fly
But you can come to me
When the world breaks your heart
No matter where on earth you are
Baby, You can come to me

When the seven seas you sail or the winding roads you
roam
If you're lost or feeling all alone
Let my heart be your beacon hope
If you ever need a place to cry
Baby, come to me, come to me
I've always known that you were born to fly
But you can come to me
If the world breaks your heart
No matter where on earth you are
You can come to me
